

5-Star Experience with Nicholsons

I had been wanting to move house for quite some time, and when I saw the house I had wanted to buy for years come up for sale with Nicholsons, I contacted them immediately. I spoke to Ash and booked a viewing and a valuation on our property a couple of days later.

I chose Nicholsons as I had seen how great they are at promoting and marketing properties. They seemed way above the rest of the local estate agents and didn't disappoint. We sold our house after just one viewing. The way it was marketed and presented was great.

The communication we received from day one has been brilliant. The WhatsApp group was really helpful. It allowed thorough information to be passed quickly between all parties involved.

Claire and James really stood out to me, both going above and beyond with their help, advice and recommendations. Everyone I have had contact with in the team has been friendly, professional and very helpful.

We were also recommended Pinnacle Law and chose them as our solicitors. I can't fault them either, we were kept updated with everything that was happening in an efficient and professional manner, often having questions answered out of office hours, which was very kind and helpful.

We stumbled upon a few problems with the company that was recommended to do the house survey, and I felt we were pressured/upsold by them. These problems were solved quickly and efficiently with the help of the team. We then had to do some negotiating following the results of the survey and, again, that was handled brilliantly and professionally by Claire.

We are really happy in the new house, and it was quite an emotional day when we finally got the keys. I'm back in the family home that I grew up in, it's a house with lots of memories for me and my family, and we look forward to making many more happy memories here.

I would 100% recommend Nicholsons to my family and friends, and I already have! I hope not to move house again for a very long time, but if I do, I would definitely go back to Nicholsons. Thank you!
